Be joyous, and always act out of charity, with faith and hope in God.

St. Angela Merici (Primitive Rule)
Dear Sisters and Brothers in Christ,

God has showered many blessings on the St. Angela Merici parish community. Dedicated Catholic men and women from the Sacred Heart and Immaculate Conception parishes have faithfully joined together to make St. Angela Merici a beacon of Christ’s love and service on the east side of Youngtown. In gratitude for God’s blessings, the men and women of this parish have historically responded with the best of their time, talents and material resources. Now, we are challenged to demonstrate our commitment to assure a strong future for the parish into the next generation!

The placement of the Immaculate Conception bell in the tower along side the Sacred Heart bell is truly a significant step in the coming together of our parish community. For this reason, we are announcing our “Let the Bells Ring!” campaign. Our campaign, which also addresses handicap accessibility for the parish office, is outlined in this brochure.

I ask every member of this parish community to participate in our campaign by making a sacrificial gift payable over 24 months. Our commitment and sacrifice today helps to guarantee that future generations will have a place to continue celebrating the faith-filled milestones in their faith lives! I also ask for your prayers that our Lord, through the intercession of St. Angela Merici, will bless our campaign efforts.

Sincerely yours in Christ,

Reverend Kevin Peters, Pastor

---

About Our CAMPAIGN

This campaign will help complete the following projects:

- Bell Restoration and Installation
- Bell Tower Reinforcement
- All Equipment Costs
- Handicap Parking
- Handicap Accessibility Ramp

CAMPAIGN GOAL

$30,000

St. Angela Merici Parish is in need of a total of $60,000 to complete these pieces. If our parish raises $30,000 of the total cost, a donor has offered a $30,000 matching grant to cover the remaining amount, with a stipulation that this money may be only used for this project. We must have $30,000, cash in-hand, by March 2018 in order to receive this grant.

Let the Bells Ring!
